Think quality

## USTERIZED® – The brand for trusted yarn quality

The Usterized branding program started almost 40 years ago, and was expanded with quality certification being awarded to outstanding spinning mills in 2006. The Usterized brand signifies yarns produced by spinning mills with a strong commitment to strict quality management. These mills apply Uster instruments and data, along with other latest technologies. Uster auditing ensures systematic and continuous improvements in quality management processes.

- Continuous improvements in quality management are a must
- Usterized guarantees high standards

**Usterized – Hard to earn, even harder to sustain**  
Companies seeking Usterized certification must pass a stringent audit. Experts from Uster Technologies scrutinize their quality management systems and processes on a regular basis at least every second year.

- The mill must produce yarns of consistent, defined quality through a quality management system with a continuous improvement process
- The mill must obtain reproducible quality data continuously, reliably and accurately, which is compared to the Uster Statistics

It is acknowledged that a significant effort is required to sustain a quality management regime over years.

### Standards of a trustworthy supplier

Usterized spinning mills are reliable partners for weavers, knitters, retailers and garment makers. Usterized mills place a high priority on customer satisfaction and become trusted suppliers focused on:

- Deep understanding of application requirements and end-use
- Production of yarns with consistent quality from batch to batch
- Working to continuously reduce or eliminate complaints in downstream processes and the value chain

Worldwide, Usterized spinning mills represent a grouping of ambitious textile producers. Usterized spinners are recommended as preferred suppliers for yarn consumers. This circle of excellence in yarn quality management now numbers 80 spinning mills worldwide – some of which have been Usterized for more than ten years. This brochure lists all the Usterized certified spinning mills, categorized by country and alphabetically. Currently the following mills are included:

Detailed profiles of the Usterized spinning mills listed below are available at [www.uster.com/usterizedmembers](http://www.uster.com/usterizedmembers) and by scanning this QR code.

### The standard from fiber to fabric

Uster is the world's leading supplier of total quality solutions from fiber to fabric. Uster standards and precise measurement provide unparalleled advantages for producing best quality at minimum cost.

### Think Quality

Our commitment to state-of-the-art technology ensures the comfort and feel of the finished product – satisfying the demands of a sophisticated market. We help our customers to benefit from our applied knowledge and experience – to think quality, think Uster.

### Broad range of products

Uster occupies a unique position in the textile industry. With our broad range of products, we have a wide reach across the textile chain that is unmatched by any other supplier in the market.

### Optimal service

Know-how transfer and instant help – we are where our customers are. A total of 215 certified service engineers worldwide grants fast and reliable technical support. Benefit from local know-how transfer in your specific markets and enjoy our service à la carte.

### Uster Statistics – the textile industry standards

We set the standards for quality control in the global textile industry. With Uster Statistics, we provide the benchmarks that are the basis for the trading of textile products at assured levels of quality across global markets.

### Usterized – brand your products with quality

Usterized stands for 'defined quality assured' within the textile chain. We invite selected customers to join the Usterized Member Program. More information at [www.usterized.com](http://www.usterized.com).

### Uster worldwide

With four technology centers, four regional service centers and 50 representative offices around the world, Uster is always sure of delivering only the best to its customers. Uster – committed to excellence, committed to quality. And that will never change.
