3. “Conditions of Use nı okuyun, e-posta adresinizi girin ve girişinizi onaylayın

4. Değişikliklerinizi onaylamak için “Save” düğmesini tıklayın

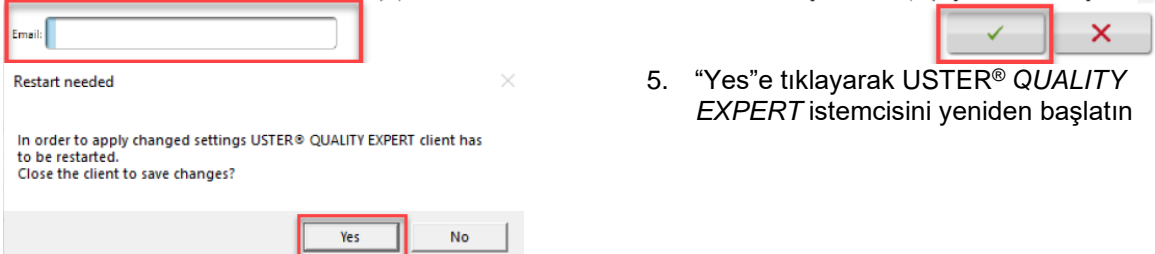

USTER® MOBILE ALERTS: Conditions of Use

Version 1.3

Please read these Conditions of Use (Conditions) carefully before activating and using USTER® MOBILE ALERTS. You, the Customer, are required to accept the Conditions in order to use USTER® MOBILE ALERTS.

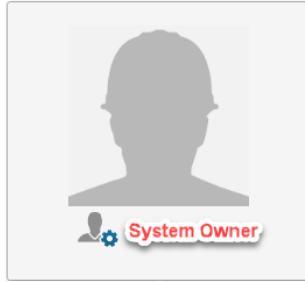

Uster Technologies AG, Sonnenbergstrasse 10, CH-8610 Uster, Switzerland (Uster) is the provider of USTER® QUALITY EXPERT (Uster Quality Expert), which is the Quality Management Platform for advanced process optimization across yarn manufacturing processes. Customer is a user of Uster Quality Expert. Uster is also the provider of a mobile application referred to as USTER® MOBILE ALERTS (Uster Mobile Alerts). Uster Mobile Alerts improves the accessibility of Uster Quality Expert by permitting remote access to data generated or collected by Uster Quality Expert via a mobile app (the App). Uster Mobile Alerts is provided to Customer "as is" and free of charge. These Conditions govern the provision and use of Uster Mobile Alerts. They take precedence over any agreement Customer may enter into for obtaining an app related to Uster Mobile Alerts, and are independent of any other agreement Customer may have with Uster.

1. With Customer's activation of Uster Mobile Alerts by uploading a credential file from Uster Quality Expert, these Conditions are binding upon Customer until terminated either by Customer or Uster, which Customer and Uster may do at any time at their discretion with immediate effect by written notice or, on the part of Uster, other appropriate notification to Customer.
2. Customer may use Uster Mobile Alerts as long as these Conditions are binding upon Customer, and Customer is in full compliance with them. Uster Mobile Alerts may be used only for accessing information from the spinning mill systems operated by Customer as intended by Uster. Any use of Uster Mobile Alerts not expressly provided for herein is not permitted. Customer is responsible for any employee and other third party to whom Customer permits the App's use, as it is for itself. Upon termination of these Conditions, Uster Mobile Alerts may no longer be used, and any copy of the App shall be deleted.
3. There is no charge to Customer for using Uster Mobile Alerts. However, any related costs, including any professional services Customer may wish to obtain from Uster in connection with Uster Mobile Alerts, are to be borne by Customer.
4. It is the responsibility of Customer to obtain the App through applicable third party app stores. Uster has no obligation to ensure that the App is available to Customer and remains compatible with the mobile devices Customer uses for the App. Unless permitted by mandatory law, neither the App nor other parts of Uster Mobile Alerts may be reverse engineered, modified, enhanced or used for purposes other than those intended by Uster. These Conditions apply to any version of the App. However, Customer is responsible to keep its versions of the App up to date; old versions may not work.
5. Customer acknowledges and accepts that for Uster Mobile Alerts to work, Customer's spinning mill systems (including related systems) will need to be configured to feed certain information to a cloud system (the Cloud) operated by a third party provider (and its subcontractors) for Uster and acting as a relay for the App. Such Cloud may be located in any country worldwide including in countries without an adequate level of data protection. Customer agrees that Uster does not have to put in place any particular controls, vis-à-vis such provider or verify its technical and organizational measures to protect the data processed by it, and that Customer alone is responsible to ensure that any data protection rights of its employees, contractors and other parties involved are complied by Customer's use of Uster Mobile Alerts.
6. Customer agrees that Uster, to the extent permitted under the applicable laws and regulations, has the right to use any and all information fed into and otherwise processed by Uster Mobile Alerts for its own purposes in good faith, including in particular statistical, research, product and service development, technical support, customer relationship, marketing and sales purposes, provided that Uster shall remove any data reasonably permitting the re-identification of Customer prior to making it generally available.
7. Customer's use of Uster Mobile Alerts is at Customer's own risk and costs. Uster Mobile Alerts is provided on an "as is" basis. Customer shall not rely on Uster Mobile Alerts for any decisions that may have harmful impact. Customer does not provide any warranty whatsoever with regard to Uster Mobile Alerts (always including the App and the Cloud), neither as to its availability, stability, accuracy, security, confidentiality, compliance with law, nor for the correctness, completeness and timeliness of the information accessible through Uster Mobile Alerts, nor as to its fitness for a particular purpose, the absence of errors and other deficiencies or the non-infringement of third party rights. Uster is not obliged to

5. “Yes”e tıklayarak USTER® QUALITY EXPERT istemcisini yeniden başlatın
